About Us

DMC for Petroleum Service and Contracting is a leading provider of comprehensive petroleum services and contracting solutions in Iraq. , we have grown from a small specialized service provider to one of the most trusted names in Iraq's petroleum industry.

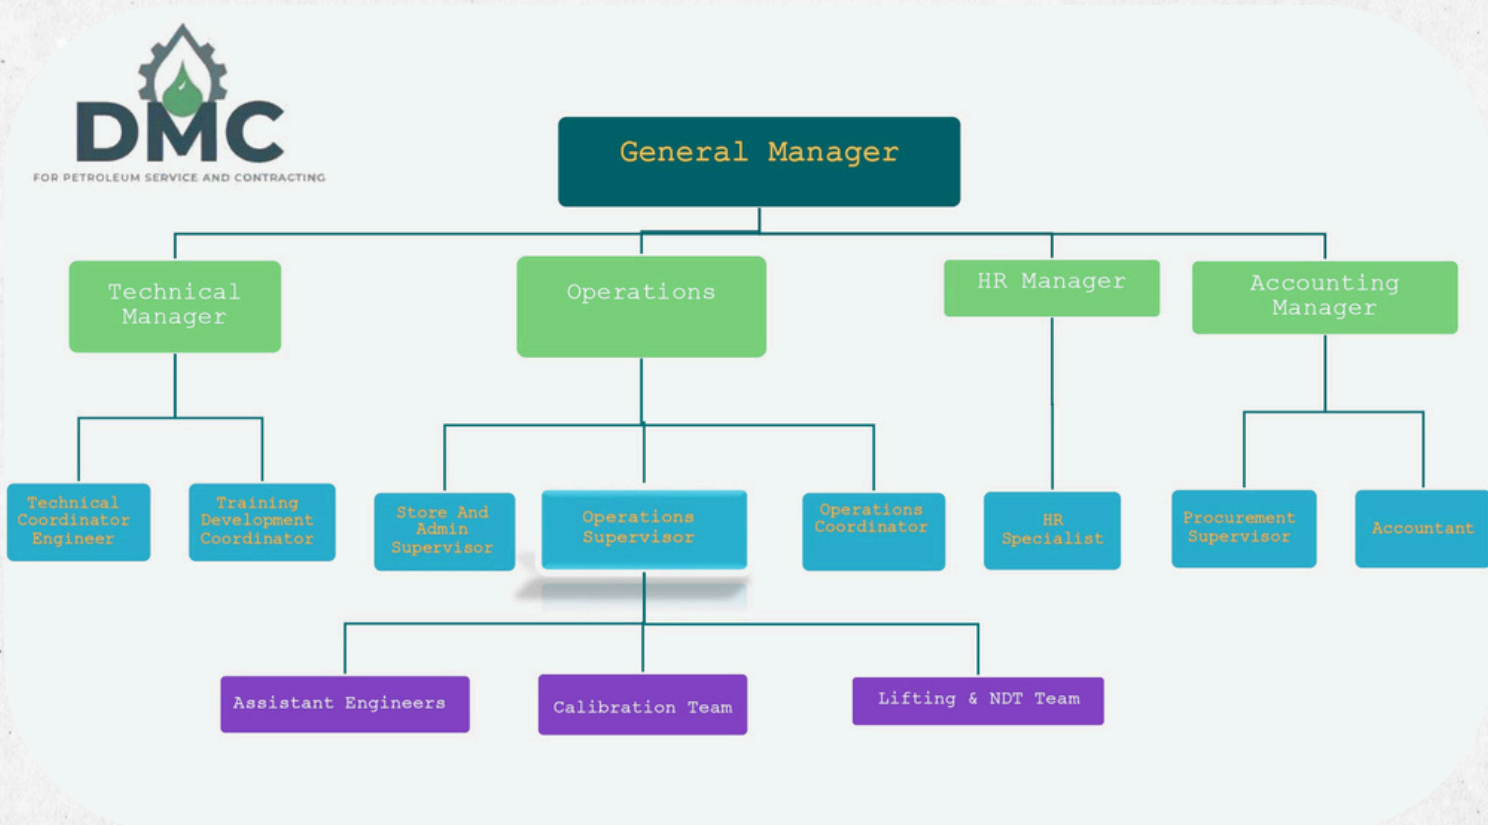

Our journey began with a vision to deliver world-class petroleum services that meet and exceed international standards. Over the past 10+ years, we have consistently demonstrated our commitment to excellence, quality, and innovation in every project we undertake.

What started as a small team of dedicated professionals has evolved into a robust organization with ISO-accredited facilities, state-of-the-art equipment, and a team of highly qualified experts. Today, we serve major oil and gas companies across Iraq, delivering solutions that span the entire spectrum of petroleum operations.

Our Team

At DMC for Petroleum Service and Contracting, our greatest asset is our team of highly qualified professionals. Our team consists of experts with extensive experience in the petroleum industry, certified by international bodies and trained to deliver exceptional results.

Growth Prospects

Future Growth

Strategic Expansion and Development Plans

● 2012 ● 2022 ● 2025

At DMC for Petroleum Service and Contracting, we are committed to continuous growth and expansion. Our growth prospects are built on a foundation of excellence, innovation, and strategic planning that positions us for long-term success in the petroleum industry.

Our strategic growth plan focuses on expanding our service portfolio, entering new markets, investing in advanced technology, and building stronger relationships with clients and partners. We are continuously exploring opportunities to enhance our capabilities and deliver greater value to our clients.

Technology investment is a key component of our growth strategy. We are committed to staying at the forefront of technological advancement in the petroleum industry, investing in state-of-the-art equipment and training our team on the latest methodologies and best practices.

Geographic expansion is another important aspect of our growth plan. We aim to expand our operations beyond Iraq, bringing our expertise and commitment to excellence to the broader Middle East region. This expansion will enable us to serve more clients and contribute to the growth of the petroleum industry in the region.

Business Strategies

Our Strategic Approach

Delivering Excellence Through Strategic Planning

At DMC for Petroleum Service and Contracting, our business strategies are designed to ensure sustainable growth, operational excellence, and client satisfaction. Our strategic approach combines long-term vision with tactical execution to deliver exceptional results.

Our strategic framework is built on three pillars: operational excellence, client-centric approach, and continuous innovation. These pillars guide our decision-making and ensure that we stay ahead of industry trends while meeting our clients' evolving needs.

We focus on building strong relationships with clients, partners, and stakeholders. Our collaborative approach enables us to understand client needs better, deliver customized solutions, and build lasting partnerships that drive mutual success.

Technology and innovation are central to our strategy. We continuously invest in advanced equipment, training, and development to ensure our team stays at the forefront of technological advancement in the petroleum industry.

Our Ethics & Morality

Ethical Framework

Principles of Ethical Conduct

At DMC for Petroleum Service and Contracting, ethics and morality are fundamental to our operations. We are committed to conducting business with the highest standards of integrity, honesty, and ethical behavior in all our interactions with clients, partners, employees, and stakeholders.

Our ethical framework is built on principles of transparency, accountability, respect, and responsibility. These principles guide our decision-making and ensure that we maintain the trust and confidence of all stakeholders while delivering exceptional services.

We believe that ethical conduct is not just a compliance requirement but a fundamental aspect of good business practice. Our commitment to ethics extends beyond legal compliance to encompass moral responsibility towards our clients, employees, community, and the environment.

We maintain strict policies against corruption, bribery, and any form of unethical behavior. All employees are required to adhere to our code of conduct, which emphasizes honesty, integrity, and ethical behavior in all business dealings.

Goals And Philosophy

Our Goals

Objectives That Drive Our Success

At DMC for Petroleum Service and Contracting, our goals are aligned with our vision of becoming the leading petroleum services provider in Iraq and the Middle East region. We are committed to achieving excellence in all aspects of our operations while maintaining the highest standards of quality, safety, and client satisfaction.

Our primary goals include expanding our service portfolio, entering new markets, building stronger client relationships, and continuously improving our capabilities through technology investment and team development. These goals guide our strategic planning and ensure we stay focused on long-term success.

Our philosophy is built on the belief that success comes from delivering exceptional value to clients through quality service, innovative solutions, and strong partnerships. We believe in continuous improvement, learning from experience, and adapting to changing market conditions while maintaining our core values.

We are committed to creating a positive impact in everything we do, whether through exceptional service delivery, environmental responsibility, or social contribution. Our philosophy emphasizes the importance of building lasting relationships based on trust, respect, and mutual benefit.

Doctrines

Our Doctrines

Fundamental Principles That Guide Our Operations

At DMC for Petroleum Service and Contracting, our doctrines represent the fundamental principles and beliefs that guide all our operations. These doctrines form the foundation of our organizational culture and ensure that we maintain consistency in our approach to service delivery, client relations, and business conduct.

Our doctrines emphasize the importance of excellence, integrity, safety, and client satisfaction. These principles are not just written policies but living values that guide every decision, action, and interaction in our organization. They reflect our commitment to maintaining the highest standards in everything we do.

We believe that adherence to these doctrines is essential for long-term success and sustainability. They ensure that we remain focused on our core mission while adapting to changing market conditions and evolving client needs. Our doctrines provide the framework for building trust, maintaining quality, and achieving excellence.

These fundamental principles are embedded in our organizational culture and are reinforced through training, leadership, and daily practices. They guide our strategic planning, operational execution, and relationship building, ensuring that we maintain consistency and excellence across all aspects of our operations.

Our Skillset

Our Capabilities

Comprehensive Expertise in Petroleum Services

At DMC for Petroleum Service and Contracting, our skillset encompasses a wide range of capabilities across the petroleum industry. Our team of experts brings decades of combined experience and specialized knowledge to every project, ensuring that we deliver exceptional results across all aspects of petroleum operations.

Our capabilities span calibration, testing, inspection, training, procurement, and contracting services. We have expertise in working with various types of equipment, systems, and processes used in the petroleum industry, from upstream exploration to downstream processing and distribution.

Our team includes certified specialists in multiple disciplines, including calibration engineering, NDT techniques, safety management, project management, and technical training. This diverse skillset enables us to provide comprehensive solutions that meet the complex needs of the petroleum industry.

We continuously invest in training and development to ensure our team stays current with the latest technologies, standards, and best practices. This commitment to professional development ensures that we maintain our competitive edge and deliver solutions that meet and exceed industry standards.

Why Choose DMC

Why DMC Stands Out

Excellence, Quality, and Reliability You Can Trust

Choosing the right partner for your petroleum services and contracting needs is crucial. At DMC for Petroleum Service and Contracting, we understand that your projects require more than just services—they require a trusted partner committed to excellence, quality, and your success.

What sets DMC apart is not just our extensive experience or state-of-the-art equipment, but our unwavering commitment to delivering solutions that exceed expectations. We combine technical expertise with a client-centric approach, ensuring that every project is executed with precision, professionalism, and the highest standards of quality and safety.

Our reputation has been built on a foundation of trust, reliability, and consistent delivery of exceptional results. Over 15 years of operations in Iraq's petroleum industry, we have established strong relationships with major oil companies, contractors, and stakeholders, built on mutual respect and shared commitment to excellence.

OUR SERVICES

CALIBRATION ACTIVITIES

At DMC for Petroleum Service and Contracting, we provide professional calibration services for all types of petroleum and industrial equipment.

01.

PRESSURE TEST

At DMC for Petroleum Service and Contracting, we provide comprehensive pressure testing services for pipelines, vessels, equipment, and systems used in petroleum operations.

02.

GAS DETECTION ACTIVITIES

At DMC for Petroleum Service and Contracting, we provide advanced gas detection and monitoring services to ensure workplace safety and environmental protection in petroleum operations.

03.

LIFTING INSPECTION

At DMC for Petroleum Service and Contracting, we provide professional inspection and certification services for all types of lifting equipment and operations.

04.

NON-DESTRUCTIVE TESTING (NDT)

At DMC for Petroleum Service and Contracting, we provide state-of-the-art non-destructive testing (NDT) services using advanced techniques to assess material integrity without causing damage.

05.

TRAINING

At DMC for Petroleum Service and Contracting, we provide comprehensive training programs for petroleum industry personnel, delivered by certified instructors with extensive experience.

06.

PROCUREMENT

At DMC for Petroleum Service and Contracting, we provide efficient procurement services for petroleum equipment, tools, and supplies from trusted suppliers.

07.

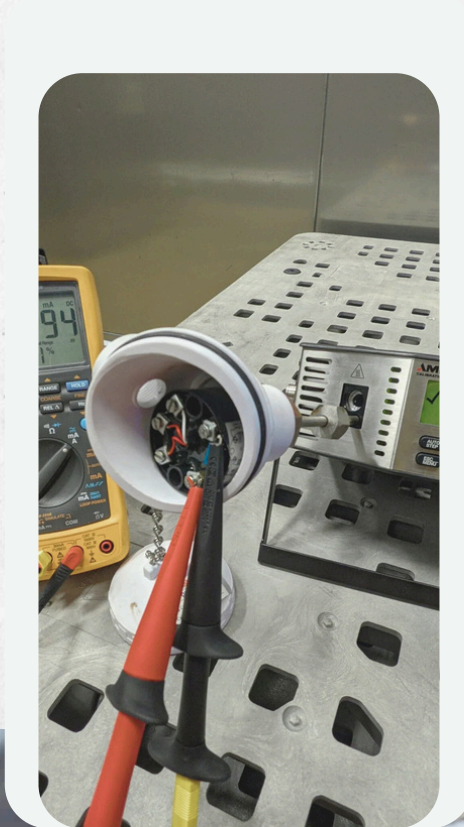

CONTRACTING

At DMC for Petroleum Service and Contracting, we provide professional contracting services for petroleum projects, from planning to execution and commissioning.

08.

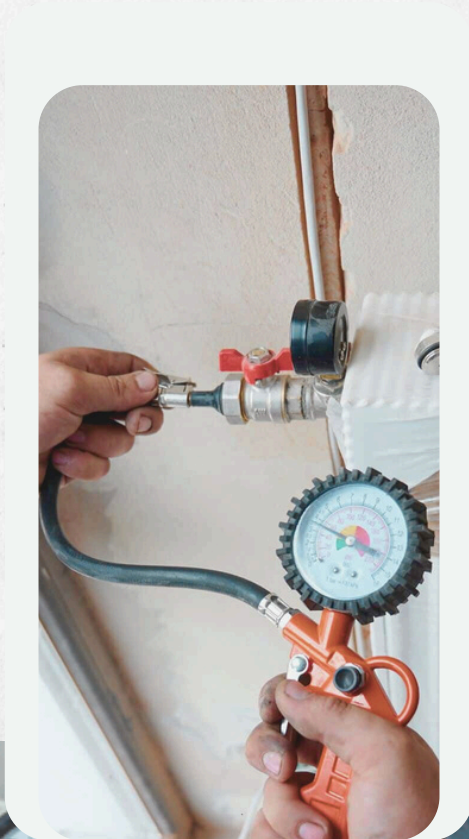

Calibration Activities

DMC offers comprehensive calibration services for a diverse range of instruments, including pressure gauges, temperature sensors, gas detectors, and electrical devices. Our calibration processes are conducted using certified reference standards to ensure precise and reliable measurements.

Pressure Test

We perform hydrostatic and pneumatic pressure testing for pipelines, cylinders, and pressure vessels. DMC ensures all tests meet international safety and performance standards, providing detailed test reports and certification.

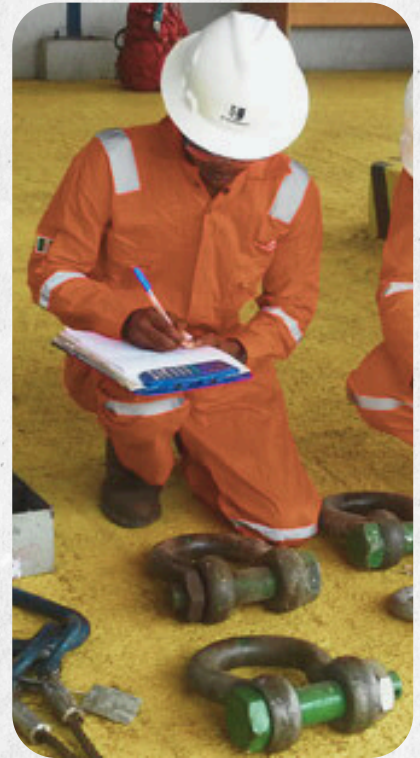

Gas Detection Activities

DMC offers testing, calibration, and maintenance for portable and fixed gas detection systems used in industrial and oilfield applications. Our services ensure safety, reliability, and compliance with safety regulations.

Lifting Inspection

Our lifting inspection services cover cranes, lifting accessories, forklifts, and hoisting equipment. All inspections are carried out in accordance with LEEA and international standards, ensuring operational safety and certification validity.

Non-Destructive Testing (NDT)

DMC provides advanced NDT services such as ultrasonic testing (UT), magnetic particle testing (MPI), dye penetrant testing (DPT), and visual inspection (VT). These techniques help detect defects without damaging the equipment or structure.

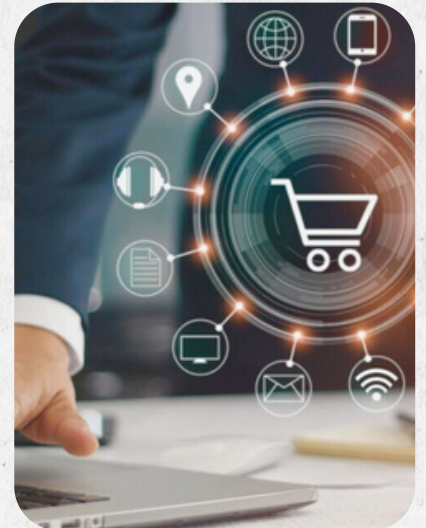

Training

We deliver professional training programs in inspection, calibration, safety, and lifting operations. Our courses are designed to enhance technical competence and prepare engineers and technicians for international certifications.

Procurement

DMC supports clients with high-quality procurement solutions, providing equipment, instruments, and spare parts from trusted global suppliers. We ensure timely delivery, competitive pricing, and full technical support.

Contracting

At DMC for Petroleum Service and Contracting, we provide professional contracting services for petroleum projects, from planning to execution and commissioning.

Project Management :

Comprehensive project management services from planning to execution and commissioning.

Installation Services :

Installation of equipment, systems, and facilities used in petroleum operations.

Maintenance & Repair :
